			Struct in C		Struct in C++		Class in C++
Abstraction			Y		Y		Y
Encapsulation	Binding		Data	Y	Y		
			Data with fun	N	Y		Y
	Hiding		N		Default	N	
					Not Default	Y	
Inheritance			N		Y		Y
Polymorphism			N		Y		Y

```cpp
3   struct student
4   {
5       int roll;
6       char name[20];
7
8       void display()
9       {
10          printf("\n Roll No is %d", this->roll);
11          printf("\n Name %s ", this->name);
12      }
13  };
14  int main()
15  {
16      student s1;
17      s1.roll = 10;
18      strcpy(s1.name, "Sachin");
19      s1.display();
20      return 0;
21  }
```

Assignment: Do all the assignment question of Structure eg. Employee, Complex etc.
